CURRICULUM VITAE
{
    EXPERIENCE()
    {
        Full stack developer (Jul_2023, Apr_2025)
        {
            Avature
            Malaga, Spain | Remote
            Flow Specialist at the Templates team. Development of Applicant Tracking System portals,
            used for talent acquisition and management, for clients like European Central Bank, Council
            of Europe, UK Ministry of Justice, IKEA, L'Oréal and Mercadona, among many others.
            // Linux, PHP, Twig, JavaScript, jQuery, MySQL, HTML, CSS, VSCode, Git, Gitlab
        }

        Full stack developer (Mar_2022, Jun_2023)
        {
            PrimeIT | Celfocus
            Oporto/Lisbon, Portugal | Remote
            During this time, I was allocated to the company Celfocus and developed web-based software
            for Vodafone Ziggo client based in the Netherlands. This software handles all kind of
            hardware allocation, billing, and other functionalities for the Vodafone clients.
            // PHP, MVC, Zend, Bootstrap, JavaScript, jQuery, MSSQL, HTML, CSS, PHPStorm, Postman,
            // SOAP UI, Swagger, Docker, Git, Gitlab, Jira, Agile/Scrum
        }

        Full stack developer (Apr_2018, Mar_2022)
        {
            MagicBrain
            Coimbra, Portugal | Remote
            In this project I developed web-based software for several clients mainly in the area of
            clothing and furniture. These applications, besides a configuration back-office tool, had
            a 3D viewer where the client could navigate around the configured garment or furniture.
            // Linux, PHP, JavaScript, jQuery, MySQL, HTML, CSS, GIMP, Inkscape, VSCode, MVC, Bootstrap
        }

        Graphic designer (Mar_2014, Feb_2018)
        {
            Globovac
            Coimbra, Portugal | Remote
            Globovac produces solutions for central vacuum cleaning and underfloor heating. I was
            responsible for the marketing department and developed campaigns, promotional videos,
            social media content, user manuals, catalogs, websites and web-based management software.
            // Photoshop, Illustrator, Premiere, PHP, JavaScript, jQuery, MySQL, HTML, CSS, WordPress
        }

        Music teacher (Sep_2003, Apr_2014)
        {
            Ministry of Education
            Lisbon/Coimbra, Portugal
            Musical Education classes in the three cycles of Basic Education.
            Development of websites and intranet systems.
            // PHP, MySQL, JavaScript, HTML, CSS
        }
    }

    EDUCATION()
    {
        Lisbon Higher School of Education (1999, 2003)
        {
            Elementary school teacher, Musical Education variant
            Licentiate degree
            // grade 14
        }

        Regional Conservatory of Tomar (1997, 2002)
        {
            Classical Guitar
            5th degree
            // grade 17
        }

        Institute of Employment and Professional Training of Tomar (1997, 1999)
        {
            Technical Designer
            Level IV
            // grade 19,12
        }
    }
}
